ANNOUNCEMENTS

New Book Makes Extensive Use of POLYMATH

A new book that makes extensive use of POLYMATH has been published by POLYMATH authors Michael B. Cutlip and Mordechai Shacham. This book titled **Problem Solving in Chemical Engineering with Numerical Methods** is available through Prentice Hall, and examination copies are available from www.prenhall.com

This test is basically a companion book that provides an extensive selection of problems that require numerical solutions from throughout the core areas of chemical engineering. Many are completely solved or partially solved with POLYMATH. Practical aspects of numerical problem solving are emphasized. More detailed information is on the POLYMATH web site at www.polymath-software.com

Industrial Affiliates Program

CACHE would like thank the following companies for their continuing support as part of the CACHE Industrial Affiliates Program

Air Products and Chemicals, Inc.

Aspen Technology, Inc.

DuPont

Eastman Chemical Company

Merck & Co. Inc.

Mobil Technology Company

Parke-Davis

Simulation Sciences, Inc.

Union Carbide Corporation

CACHE Products

To order CACHE products, complete the Standard Order Form and send with payment to:

CACHE Corporation
P.O. Box 7939
Austin, TX 78713-7939

FAX: (512) 295-4498
or
Email: cache@uts.cc.utexas.edu

We accept credit cards (VISA/Mastercard), Purchase Orders, and checks.

Overseas orders are sent surface at no charge. Airmail is extra.
